

# National conference on REcent Trends in the study of Compact Objects (RETCO-V): Theory and Observation

## Wednesday, April 5, 2023

### Cataclysmic Variables - Auditorium (11:15 AM - 12:15 PM)

-Conveners: Banibrata Mukhopadhyay

time	[id] title	presenter
11:15 AM	[54] Studying the accretion physics of two unique magnetic cataclysmic variables using broadband X-ray data	DUTTA, Anirban
11:30 AM	[16] SWIFT J0503.7-2819: a nearly synchronous intermediate polar below the period gap?	RAWAT, NIKITA
11:45 AM	[80] Multiwavelength observations and Optical spectra modeling of the extragalactic Novae M31N2008-12a	BASU, Judhajeet
12:00 PM	[75] Ultra-violet variability of compact objects observed with UVIT	M, RESHMA
