

Sun, Space Weather, and Solar-Stellar Connection

Tuesday, January 21, 2025

Instruments/Facilities and Science: New and Upcoming (4:55 PM - 6:10 PM)

time	[id] title	presenter
4:55 PM	[135] Scientific Achievements Based on Data from Solar Orbiter/EUI	PETER, Hardi
5:15 PM	[211] Aditya-L1: An Observatory Class Mission for Solar and Heliospheric Observations	KASIVISWANATHAN, Sankarasubramanian
5:35 PM	[146] The Fabry-Pérot Imaging Spectropolarimeters for the European Solar Telescope	BELLOT RUBIO, Luis

Wednesday, January 22, 2025

Instruments/Facilities and Science: New and Upcoming (4:15 PM - 5:35 PM)

time	[id] title	presenter
4:15 PM	[121] National Large Solar Telescope (NLST) of India	B, Ravindra
4:35 PM	[71] Performance of the Upgraded GRIS@GREGOR Spectrograph	COLLADOS, Manuel
4:50 PM	[43] Solar Orbiter/EUI Observations and a Bifrost MHD Simulaton of Fine-scale Dot-like Heating Events in Emerging Flux Regions	TIWARI, Sanjiv
5:05 PM	[184] The Gauribidanur Radio Observatory: Current Status and Future Plans	CHIDAMBARAM, Kathiravan
5:20 PM	[93] Investigations on Suprathermal Ions Observed by ASPEX/STEPS on board Aditya-L1 During its Earth-Bound Orbits	DALAL, Bijoy
