

# Sun, Space Weather, and Solar-Stellar Connection

## Friday, January 24, 2025

### Radio Input to Heliospheric Studies and Space Weather (2:00 PM - 3:30 PM)

| time    | [id] title  | presenter             |
|---------|---|-----------------------|
| 2:00 PM | [110] Solar and heliospheric science from the new generation radio telescopes: Status and opportunities | OBEROI, Divya         |
| 2:25 PM | [156] Bringing Together World's Best Radio Telescopes for Remote Sensing of Heliospheric Magnetic Field | KANSABANIK, Devojyoti |
| 2:40 PM | [206] TBA   | ZUCCA, Pietro         |
| 3:00 PM | [109] The First Detailed Polarimetric Study of a Type-II Solar Radio Burst with the MWA                 | MAJEE, Puja           |
| 3:15 PM | [37] Type II Radio Burst Without Coronal Mass Ejection  | KUMARI, Anshu         |
